Gilding on Glass

One of the more commonly seen is glasswork. Gold or silver leaf can be applied to any glass surface, offering an elegant, durable and stunning effect. Due to the tarnish-free nature of 23-carat gold as its golden and shimmering lustre has endless and classic appeal to all. The cornerstone of hallmark designs is Gold Leaf, and as a statement piece of art, rather than 'just a sign', the glimmer of gold has broad appeal.

Signs of Gold

Honour Boards – this is the traditional method of hand letter names onto boards by using 23-carat gold leaf transfer; this classic lettering style cannot be replicated by computer-generated lettering. Gold leaf extraordinary lifespan pays homage and respect to the people listed. While honouring their remembrance with this elegant and meaningful listing of their name, service, passing or other.

Gold Embellishments

When you visit many cities and countries around the world and look up in the city and urban landscape. You will witness the wonder of gold, from large scale sculptures to the simple enhancement of a gilded flag pole topper. The 'Truck' is the term for the finial – or ball that finishes the flag pole respectfully with a simple act of an application of Gold Leaf transfer.

Architectural

Any city and country anywhere in the world and look up in the city and urban landscape. You will witness the wonder of gold, from large scale sculptures to the simple enhancement of a gilded flag pole topper. The 'Truck' is the term for the finial – or ball that finishes the flag pole respectfully with a simple act of an application of Gold Leaf transfer.
